

**MobileCollect Wireless
 USB Base Receiver**
 Part #: MC-BASE-USB

Features

- Supports all MobileCollect Wireless transmitter models
- Supports U-Wave-T, TC, & TM transmitter models
- Supports CDI CORE & VRS “Long-Range” indicators
- Data transfer via USB serial connection to computer
- Power provided by USB computer connection
- Range up to 133 feet / 40 meters
- Status LEDs
- External read switch input
- Field upgradable firmware
- Made in the USA

Specifications

Size	3.63" x 2.61" x 1.10" (L x W x H)	Baud Rates	9600 - 19.2K - 38.4K baud
Weight	2.75 oz	LED Status Indicators	Power On Wireless Data Packet Received Received Signal Strength (3 LEDs)
Range	Up to 133' line of site indoors	Output Format	Multiple output options, configured via Windows PC setup program
Power Requirements	5VDC power supplied by computer USB port	Frequency	2.4 GHz (2.4000 to 2.4835) ISM band (Industrial, Scientific, & Medical)
PC Connection	RS-232 serial via USB port	Operating Temperature & Humidity	32° to 122° F 90% humidity; non-condensing
Read Switch Connectors	One on front of unit. Option for two additional on front (3 total)	Certifications	FCC, IC, CE, RoHS, REACH

MobileCollect Wireless

RS-232/USB Base Receiver

Part #: MC-BASE-RS232

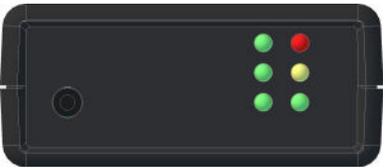

Features

- Supports all MobileCollect Wireless transmitter models
- Supports U-Wave-T, TC, & TM transmitter models
- Supports CDI CORE & VRS “Long-Range” indicators
- Data transfer via DB9 serial or USB serial
- Power provided by USB AC power adapter (included)
- Range up to 133 feet / 40 meters
- Status LEDs
- External Read switch input
- Field upgradable firmware
- Made in the USA

Specifications

Size	3.63" x 2.61" x 1.10" (L x W x H)	Baud Rates	9600 - 19.2K - 38.4K baud
Weight	3.05 oz	LED Status Indicators	Power On Wireless Data Packet Received Received Signal Strength (3 LEDs)
Range	Up to 133' line of site indoors	Output Format	Multiple output options, configured via Windows PC setup program
Power Requirements	DB9 output - 5VDC USB AC power adapter USB output - 5VDC via USB computer port	Frequency	2.4 GHz (2.4000 to 2.4835) ISM band (Industrial, Scientific, & Medical)
PC Connection	RS-232 via USB port RS-232 via DB9 serial port	Operating Temperature & Humidity	32° to 122° F 90% humidity; non-condensing
Read Switch Connectors	One on front of unit. Option for two additional on front (3 total)	Certifications	FCC, IC, CE, RoHS, REACH

**MobileCollect Wireless
 Wedge/USB Base Receiver**
 Part #: MC-BASE-KW

Features

- Supports all MobileCollect Wireless transmitter models
- Supports U-Wave-T, TC, & TM transmitter models
- Supports CDI CORE & VRS “Long-Range” indicators
- Data transfer via USB serial connection to computer
- Power provided by USB computer connection
- Range up to 133 feet / 40 meters
- External read switch input
- Status LEDs
- Field upgradable firmware
- Made in the USA

Specifications

Size	3.63" x 2.61" x 1.10" (L x W x H)	Baud Rates	9600 - 19.2K - 38.4K baud
Weight	2.9 oz	LED Status Indicators	Power On Wireless Data Packet Received Received Signal Strength (3 LEDs)
Range	Up to 133' line of site indoors	Output Format	Multiple output options, configured via Windows PC setup program
Power Requirements	5VDC power supplied by computer USB port	Frequency	2.4 GHz (2.4000 to 2.4835) ISM band (Industrial, Scientific, & Medical)
PC Connection	RS-232 via USB port Keyboard wedge via USB port	Operating Temperature & Humidity	32° to 122° F 90% humidity; non-condensing
Read Switch Connectors	One on front of unit. Option for two additional on front (3 total)	Certifications	FCC, IC, CE, RoHS, REACH

USB Serial Output

MobileCollect Wireless

USB MicroBase Receiver

Part #: MC-BASE-MICRO

Features

- For mobile data collection using laptops or tablets
- Supports all MobileCollect Wireless transmitter models
- Supports U-Wave-T, TC, & TM transmitter models
- Supports CDI CORE & VRS “Long-Range” indicators
- Data transfer via USB serial connection to computer
- Power provided by USB computer connection
- Range up to 133 feet / 40 meters
- Status LEDs
- Field upgradable firmware
- Made in the USA

Specifications

Size	1.79" x 0.79" x 0.42" (L x W x H)	Baud Rates	9600 - 19.2K - 38.4K baud
Weight	0.30 oz	LED Status Indicators	Power On Wireless Data Packet Received Receive Command from PC
Range	Up to 133' line of site indoors	Output Format	Multiple output options, configured via Windows PC setup program
Power Requirements	5VDC power from computer USB port	Frequency	2.4 GHz (2.4000 to 2.4835) ISM band (Industrial, Scientific, & Medical)
PC Connection	RS-232 serial via USB port	Operating Temperature & Humidity	32° to 122° F 90% humidity; non-condensing
Read Switch Connectors	None	Certifications	FCC, IC, CE, RoHS, REACH

USB Serial Connector

LED Status Indicators

MobileCollect Wireless
Mini Mobile Module transmitter
 Part #: MC-MM-M3

Features

- Compatible with all MobileCollect receiver models
- For mobile gage data collection, mounts on gage
- Compatible with over 2,400 gage devices
- Read modes - single, continuous & TIR
- 32-bit encryption for secure transmissions
- Field upgradable firmware
- Status LEDs
- Transmitter cable sold separately
- Over 30 transmitter cable options available
- Made in the USA

Specifications

Size	1.70" x 1.17" x .59"	Baud Rates	Not Applicable
Weight	1.0 oz	LED Status Indicators	Gage read successful Data received by base Status and diagnostics patterns
Range	Up to 133' line of site indoors	Output Format	Defined by MobileCollect Setup programs
Power Source	2032 Lithium coin cell battery Life expectancy = 300,000 readings	Frequency	2.4 GHz (2.4000 to 2.4835) ISM band (Industrial, Scientific, & Medical)
Transmitter Cable Connection	6-pin male	Operating Temperature & Humidity	32° to 122° F 90% humidity; non-condensing
Integrated Buttons	Read and Setup buttons Life expectancy = 1,000,000 presses	Certifications	FCC, IC, CE, RoHS, REACH

MobileCollect Wireless

Command Mobile Module transmitter

Part #: MC-MM-DC

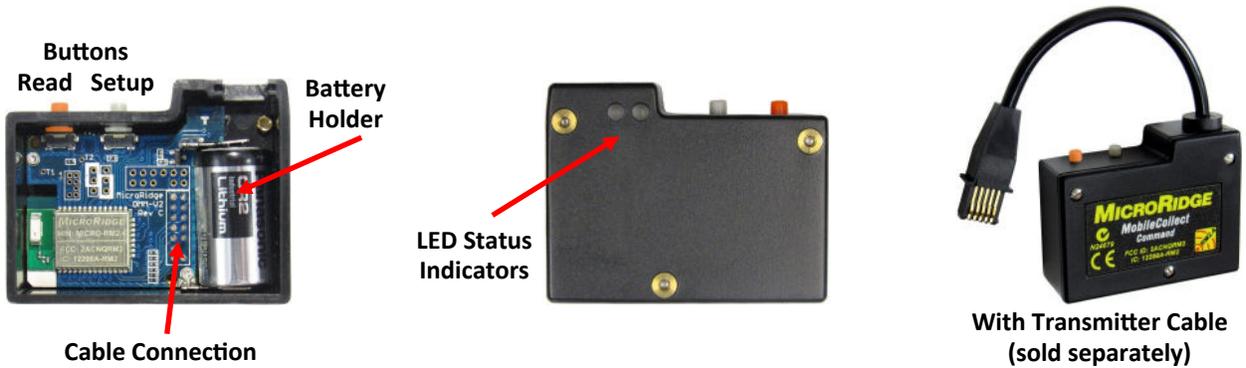

Features

- Compatible with all MobileCollect receiver models
- For mobile gage data collection, mounts on gage
- Compatible with over 2,400 gage devices
- Remote Read command function
- 32-bit encryption for secure transmissions
- Field upgradable firmware
- Status LEDs
- Transmitter cable sold separately
- Over 30 transmitter cable options available
- Made in the USA

Specifications

Size	2.13" x 1.44" x .79"	Baud Rates	Not Applicable
Weight	1.5 oz	LED Status Indicators	Gage read successful Data received by base Status and diagnostics patterns
Range	Up to 133' line of site indoors	Output Format	Defined by MobileCollect Setup programs
Power Source	CR2 Photo Lithium battery Life expectancy = depends upon setup	Frequency	2.4 GHz (2.4000 to 2.4835) ISM band (Industrial, Scientific, & Medical)
Transmitter Cable Connection	14-pin male	Operating Temperature & Humidity	32° to 122° F 90% humidity; non-condensing
Integrated Buttons	Read and Setup buttons Life expectancy = 1,000,000 presses	Certifications	FCC, IC, CE, RoHS, REACH

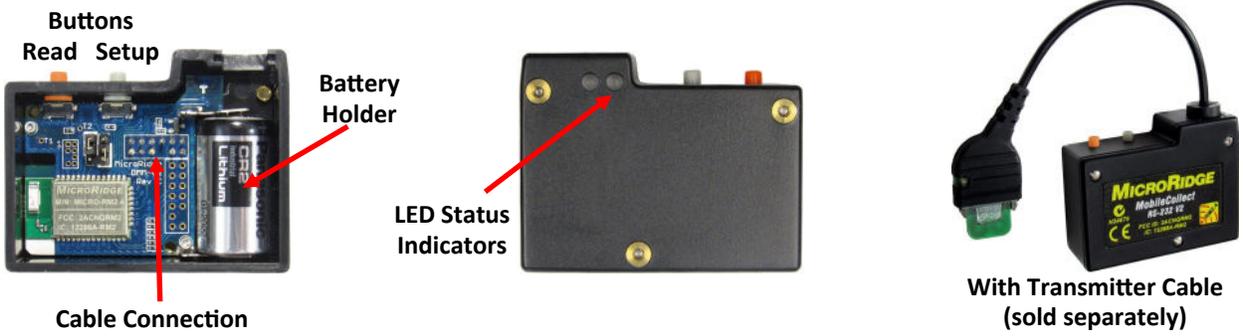

MobileCollect Wireless
RS-232 Mobile Module transmitter
 Part #: MC-MM-V2

Features

- Compatible with all MobileCollect receiver models
- For mobile gage data collection, mounts on gage
- Compatible with 300+ gage devices with RS-232 output
- Read modes - Single, continuous, and TIR
- 32-bit encryption for secure transmissions
- Field upgradable firmware
- Status LEDs
- Transmitter cable sold separately
- Over 20 transmitter cable options available
- Made in the USA

Specifications

Size	2.13" x 1.44" x .79"	Baud Rates	1200—9600 baud
Weight	1.6 oz	LED Status Indicators	Gage read successful Data received by base Status and diagnostics patterns
Range	Up to 133' line of site indoors	Output Format	Defined by MobileCollect Setup programs
Power Source	CR2 Photo Lithium battery Life expectancy = varies with RS-232 gage	Frequency	2.4 GHz (2.4000 to 2.4835) ISM band (Industrial, Scientific, & Medical)
Transmitter Cable Connection	12-pin male	Operating Temperature & Humidity	32° to 122° F 90% humidity; non-condensing
Integrated Buttons	Read and Setup buttons Life expectancy = 1,000,000 presses	Certifications	FCC, IC, CE, RoHS, REACH

MobileCollect Wireless
RS-232 Remote transmitter
 Part #: MC-REM-RS232

Features

- Compatible with RS-232 serial output devices
- For non-mobile gage data collection
- USB AC adapter powered
- Input for external foot or hand switch
- Read modes - Single & continuous
- Send read command from PC or Base receiver
- 32-bit encryption for secure transmissions
- Field upgradable firmware
- Status LEDs
- Made in the USA

Specifications

Size	3.63" x 2.61" x 1.10" (L x W x H)	Baud Rates	600 to 38.4K baud
Weight	2.70 oz	LED Status Indicators	Power On Wireless Data Packet Received Received Signal Strength (3 LEDs)
Range	Up to 133' line of site indoors	Output Format	Multiple output options, configured via Windows PC setup program
Power Requirements	Power provided by 5VDC USB AC adapter	Frequency	2.4 GHz (2.4000 to 2.4835) ISM band (Industrial, Scientific, & Medical)
Gage Connection	RS-232 serial DB9 input, male	Operating Temperature & Humidity	32° to 122° F 90% humidity; non-condensing
Read Switch Connectors	Single 2.5mm input on rear panel	Certifications	FCC, IC, CE, RoHS 3, REACH

MobileCollect Wireless
Digital Remote transmitter
 Part #: MC-REM-DIG

Features

- Compatible with Mitutoyo, Mahr, CDI, and others
- For non-mobile gage data collection
- USB AC adapter powered
- Input for external foot or hand switch
- Read modes - Single, continuous & TIR
- Send read command from PC or Base receiver
- 32-bit encryption for secure transmissions
- Field upgradable firmware
- Status LEDs
- Made in the USA

Specifications

Size	3.63" x 2.61" x 1.10" (L x W x H)	Baud Rates	9600 only
Weight	2.70 oz	LED Status Indicators	Power On Wireless Data Packet Received Received Signal Strength (3 LEDs)
Range	Up to 133' line of site indoors	Output Format	Multiple output options, configured via Windows PC setup program
Power Requirements	Power provided by 5VDC USB AC adapter	Frequency	2.4 GHz (2.4000 to 2.4835) ISM band (Industrial, Scientific, & Medical)
Gage Connection	10-pin (2x5) input, male	Operating Temperature & Humidity	32° to 122° F 90% humidity; non-condensing
Read Switch Input	Single 2.5mm input on rear panel	Certifications	FCC, IC, CE, RoHS, REACH
